

Displaying Your Boat's Bow Numbers and Registration Decals

All motorboats, including boats equipped with electric motors, and sailboats must be registered and properly display the bow numbers and registration decals.

Proper display requirements

The Bow Number must be painted or permanently attached to each side of the forward half of the boat.

Numbers and letters must be of plain, one solid color and vertical, block design, at least three inches in height and read from left to right.

The Bow Number must contrast with the background color of the hull and be legible from a distance.

Spaces or hyphens equal to the width of a letter must separate letter groups from number groups.

The Yearly Registration Decals are to be displayed three inches aft of the Bow Number on each side of the boat.

The Month of Expiration Decals must be displayed immediately aft of the Yearly Registration Decals.
